COMMISSIONING & ADJUSTMENTS DIVISION
SO MONTAJI
Ref. No. 235/2.4.1990
City of Sofia

Eng. Alexandar Borislavov Iotzov has worked at the Commissioning & Adjustments Division - Sofia of SO Montaji from 20.02.1978 to 16.10.1985 or a total of seven years and twenty one days. He has successively held the following positions:

1. Technical manager on commissioning of systems for measurement and automated adjustment of technological processes - from 20.02.1978 to 30.10.1979. His duties comprised: exercising control on the fitness and precision of supplied and installed controlling and measuring devices, automatic regulators and electronic gauges; supervision on the correctness of assembly and the precision of execution of the technical design of the above systems, their commissioning and adjustment to achieve optimum technological process. During this period he has worked at the following sites: Lulin water heating plant, Sofia; blanks workshop for copper cables of Westinghouse Co; Meissen water heating plant, GDR, Verila Household Chemicals Works, Ravno Pole.

2. Project manager of the construction of the above sites - from 01.11.1979 to 30.05.1983. His duties included management of the listed activities at each specific site. During this period he has worked at Verila Household Chemicals Work, Kostenetz Paper Factory, several industrial water treatment plants. Eng. Iotzov attended a six month course in English as from 04.10.1980.

3. Adjustments expert at the technological department of Commissioning and Adjustments Division - from 01.06.1983 to 16.10.1985. According to his job description he took part in the development of the technology of inspection, adjustment and commissioning of controlling and measuring instruments, automatic regulators and electronic gauges and performance of such inspections. From October 1983 to December 1984 Eng. Iotzov has

worked with the group for technical assistance on maintenance and servicing of measuring, control and automated adjustment systems and industrial electronics systems of Hama Cement Works, Syria.

Eng. Alexandar Iotzov has a high level of professionalism in the theory and practice of electronics, automated adjustment, electrical measurements, principles of construction of relay-contactor automatics, technology, organization and funding of commissioning and adjustment processes.

This recommendation is to serve for employment abroad.
